## **Star Wars Galaxies™: The Total Experience...Coming Soon!**

Star Wars fans wondering what might be next for them after seeing Episode III: Revenge of the Sith now have the answer. Star Wars Galaxies: The Total Experience will offer the award-winning original ground game An Empire Divided™, the Jump to Lightspeed™ expansion that brought players into space in their own Millennium Falcon and the all new Episode III Rage of the Wookiees expansion offering exclusive content directly from the final Star Wars movie all in one box. Players new to the Star Wars Galaxies experience will jump right in to exploring familiar places like Luke Skywalker's Tatooine, the Ewok village of Endor and the Wookiee home planet of Kashyyyk. In a matter of minutes, The Total Experience will have players battling across space with their friends, dodging debris from the remnants of the Death Star. And with the new adventures in Rage of the Wookiees, players will discover the true relics of Episode II's Clone Wars as well as the future of Episode III's villain, General Grievous.

Exclusive to players with the Star Wars Galaxies: The Total Experience box is the BARC Speeder. The land vehicle of choice for the specialized Biker Advanced Recon Commandos during the Clone Wars, this speeder will take players to the edges of the 11 Star Wars planets Galaxies has to offer on May 26th!

Current players can download the new planet of Kashyyyk with over 100 new adventures starting May 5th. The digital download of Episode III Rage of the Wookiees includes the Varactyl, Obi Wan's gorgeous and sure-footed mount, exclusively.
